

"SHAVIV" DEBURRING TOOLS

The Scraper Set

For Sheet Metal

Hole Deburring & Chamfering Tools

NO. S 20-2 "SHAVIV" DEBURRING TOOLS

Item No.	Model	Contents	Price (pc)
020-02-C	SET C	Blade C42, Blade Holder C, Plastic Handle A & a Key • Blade C42 (8mm) is precision ground after hardening • Triangular blade geometry provides 3 cutting edges to reach the most inaccessible locations.	
020-02-D	SET D	Blade D80, Blade Holder D, Plastic Handle A and a Key Wrench • Solid carbide blade D80 is designed to deburr sheet metal up to 3 mm thick. Can be used to scrape flat surfaces. Six cutting edges. • Handguard 3G is recommended as an extra safety precaution.	
020-02-F	SET F	Blade F20, Blade Holder F and Plastic Handle A • For non-repetitive deburring.	
020-02-FR	SET FR	Blade F20, Blade Holder FR and Plastic Handle A • Ratchet mechanism makes countersinking a breeze! • Great where normal rotational deburring is impossible due to limited space.
